

THEME 2: CHANGING ENVIRONMENTS

Key Idea 2.3: How does the global circulation of the atmosphere create distinctive climate zones?

Describe the **distribution** of the **maritime** (marine west coast) climatic zone and the annual climate.

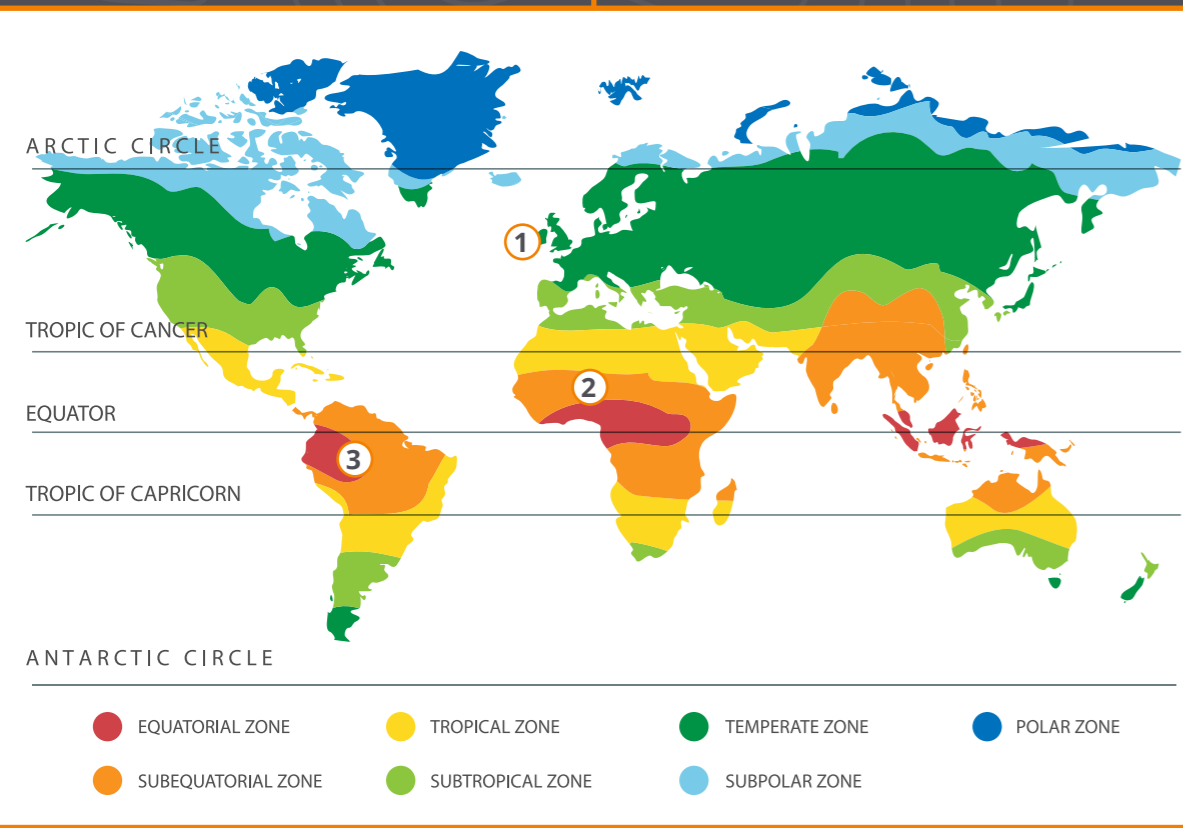

1

Can you **explain** why the climate is like this?

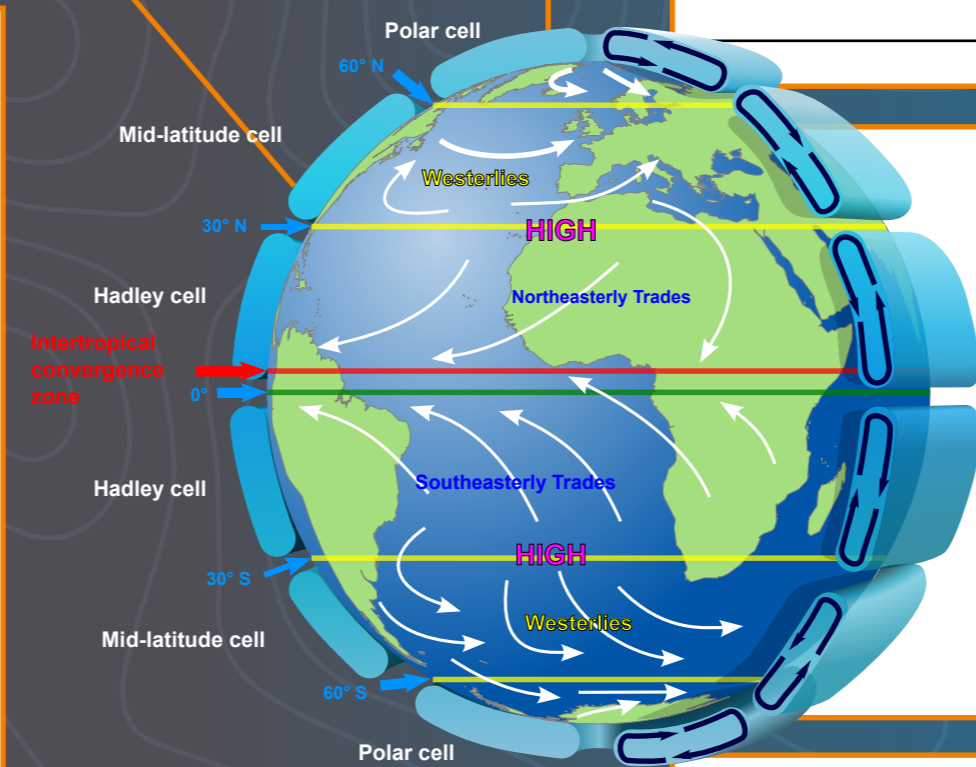

Describe the **distribution** of the **hot semi-arid** climatic zone and the annual climate.

Climatic Zones

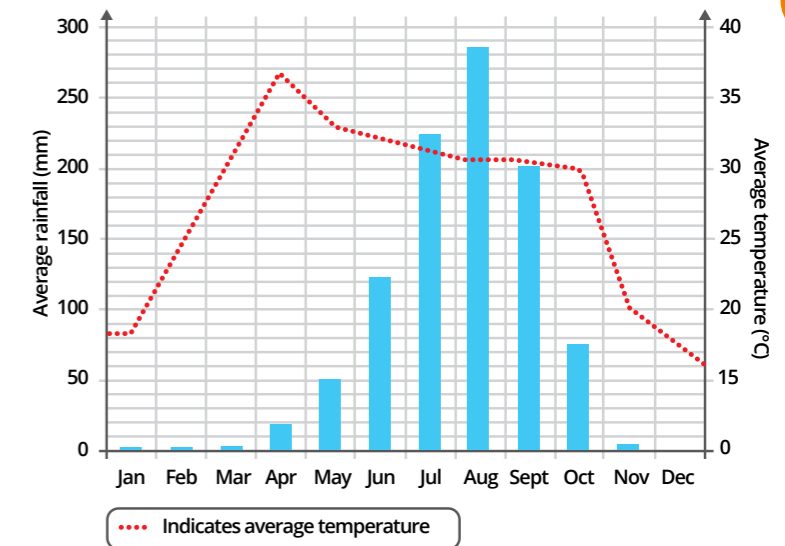

Global circulation of air

Pressure (High/Low)

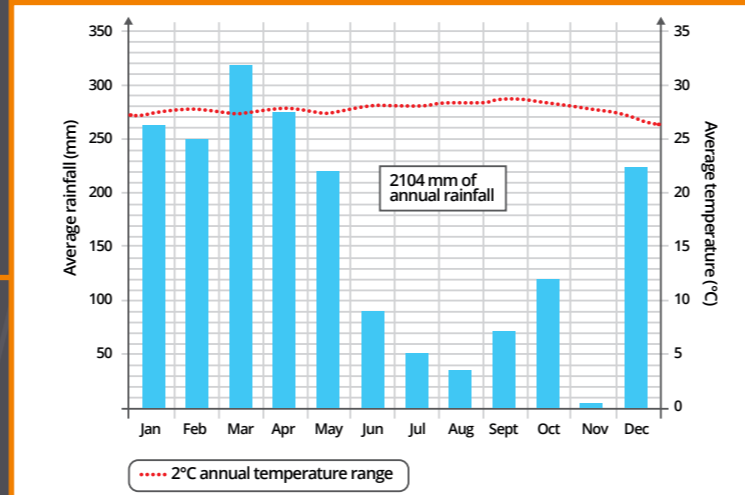

2

Can you **explain** why the climate is like this?

Describe the **distribution** of the **tropical wet** climatic zone and the annual climate.

3

Can you **explain** why the climate is like this?
